Corrected PSD Table for 2014-15 Cotton Annual

Report Categories:

Cotton and Products

Approved By:

Prepared By:

Report Highlights:

This report corrects the 2014/15 export and stock forecasts that were reported in the Production Supply and Distribution (PS&D) table in the 2014 Cotton and Products Annual.

While the text of the report correctly stated that exports are forecast at 6.0 million 480 lb bales, the PS&D erroneously lists the 2014/15 (Aug/Jul) export forecast as 7.0 million 480 lb bales. The forecast of ending stocks has been increased commensurately to 8.9 million 480 lb bales.

The corrected PS&D is provided below. For additional background see the 2014/15 cotton annual [IN4022](#).
